Minnesota Space Grant Consortium ***(MnSGC)***

November 5, 2025

Payment instructions for the **2025-2026 Space Grant Midwest** **High-Power Rocketry Competition**

A non-refundable \$400 registration fee for each team is due by December 1, 2025. Submit your payment to the following website, run by the National Space Grant Foundation (NSGF). (If this doesn't work as a clickable link, just paste the text into a browser manually.) <https://spacegrant.org/pay/>

On the form under "Item" select "Other" then enter "Space Grant 2025-2026 Midwest High-Power Rocketry Competition" in the text box that appears. Put that same text in the "Memo A" box, so that it appears explicitly on your payment receipt as well.

Include your school name and state (required) and your team name (optional, unless your school is fielding more than one team, in which case team name is required too) in one or both text boxes, so that all records are unambiguous about which team the payment covers.

Send any questions/issues about payment to Shirley Campbell campbell@spacegrant.org (and please copy James Flaten flate001@umn.edu).

Sincerely yours,

James Flaten, Ph.D.
Assoc. Dir. of NASA's MN Space Grant
Aerospace Engineering & Mechanics Dept.
University of Minnesota – Twin Cities
flate001@umn.edu

P.S. If your team ordered test motors from Gary Stroick (in addition to the two motors being provided for competition day use, which will be paid for from your registration fee), contact Gary Stoick at gstroick@comcast.net **immediately to clarify the exact cost of all test motors then include payment for them, plus a 10% NSGF processing fee, along with your payment to the National Space Grant Foundation. If your test motors were to cost \$100, for example, your payment would be \$400 + \$100 + \$10 (10% of \$100).**
