

From the Sun to Pluto

APL Is Looking for the Next Generation of Explorers **University Students Wanted**

The Johns Hopkins Applied Physics Laboratory is engineering the future of space exploration – examining Earth’s near-space environment, our Sun, planetary bodies and the outer solar system.

Join us for 10 weeks this summer, and be a part of this extreme exploration!

The NASA/APL Internship Program provides unique opportunities for university students to work on NASA missions or other space-related research opportunities at APL.

Deadline: February 28, 2015

To View/Apply:
