Hello Carl,

BBE has submitted proposal for a new computer applications course for our BBE engineering students. This is similar what is required in most other engineering programs in CSE covering some basic tools, numerical methods, statistical applications with specific examples related to BBE. Please see attached a draft syllabus. This will be brought up at the next CSE curriculum committee meeting. Tom Shield, Chair, CSE curriculum committee mentioned that as part of the now required consultation process I consult with other departments outside of CSE. Please let me know if you have any questions or need any clarifications.

Thank you.

Sincerely,

Shri
